The report contains data on the scale and scope of entrepreneurship and self-employment activities across EU Member States by social target groups, as well as the barriers they face.

Despite the accelerating pace of globalization, it is impossible to ignore the marginalization of the developing world, as billions of people continue to slip deeper into poverty. While many theories, policies, and practices have been proposed to help redress the disparities between the "haves" and the "have-nots," only recently have proponents of sustainable economic development and entrepreneurship discovered each other. In this provocative and timely book, A. Coskun Samli fills the gap by making the connections explicit and arguing that entrepreneurship may be the only hope for countries that have fallen into the trap of relying on foreign aid and bowing to the pressures of multinational conglomerates driven by short-term profit-maximizing goals. Samli builds the case that some cultures are more entrepreneurial than others, and demonstrates the importance of creating the right conditions, infrastructure, policies, and educational systems that inspire and support new business creation.

In this holistic and practical introduction to Entrepreneurship & Small Business, Paul Burns takes a life-cycle view of a business, arming students with a comprehensive understanding of the many stages and forms of entrepreneurship. The book unpicks exactly what makes an entrepreneur, what motivates them, how they manage and lead, and how their characteristics help shape the businesses they run. What's new for this edition? - Updated international case studies from entrepreneurs and small businesses, ranging from Oman to Australia (see list below for more details) - First-hand, detailed stories from real-life entrepreneurs in brand new Meet the Entrepreneur video case studies - Exploration of the growing importance of social and civic enterprise and hot topics such as effectuation and lean entrepreneurship - Rich multimedia content in the form of additional teaching and learning resources on the companion website This market-leading book offers a truly global selection of case studies: - 97 cases from across Europe - 22 cases from the U.S. - 9 cases from Far Asia - 7 cases from the Middle East - 6 cases from Southern Asia - 6 cases from Australia

This book explores how culture and tradition have impacted the tendency for African women to opt for entrepreneurship. The first section presents literature on the concept of entrepreneurship and introduces traditional African women entrepreneurs—the first-generation, culture-driven entrepreneurs, driven by the need to alleviate poverty within the family. The second section covers the modern, second-generation entrepreneurs driven by such forces as education, globalization, and technology. Further, the author assesses the regional perspectives on entrepreneurship and explores the entrepreneurial ecosystems to determine their relevance to the development of entrepreneurial spirit in Africa and among women in particular. This book expands on knowledge about the role that women play in the socio-economic development of the African continent.

Introduction to Business covers the scope and sequence of most introductory business courses. The book provides detailed explanations in the context of core themes such as customer satisfaction, ethics,

entrepreneurship, global business, and managing change. Introduction to Business includes hundreds of current business examples from a range of industries and geographic locations, which feature a variety of individuals. The outcome is a balanced approach to the theory and application of business concepts, with attention to the knowledge and skills necessary for student success in this course and beyond.

Entrepreneurship is the backbone of a strong economy. Necessity-driven entrepreneurs make up a large portion of the employed population and analyzing their methods and habits offers numerous benefits for future workers. *Nascent Entrepreneurship and Successful New Venture Creation* is a valuable resource that delves into the current trends and methodologies of recent entrepreneurs and entrepreneurial activities. Highlighting relevant topics that include non-cognitive skills, intellectual capital protection, regional development, and technology-based firms, this scholarly reference source is an ideal publication for business managers, organizational leaders, professionals, and researchers that would like to discover new insights into the world of entrepreneurship.

This book explores the different stages in the life cycle of the small firm, and ways to solve entrepreneurial dilemmas that the entrepreneur faces during and in-between these different stages of development.

Entrepreneurial Economics is concerned with the role of entrepreneurs, and the nature and scope of entrepreneurship in the economy. It broadly covers a range of economic and non-economic theories of the characteristics and behaviour of entrepreneurs. Also considered are government policies to increase the number of entrepreneurs in the economy and social entrepreneurship linked to economic development. It includes illustrations of successful entrepreneurs and more detailed case-studies.

This second edition of the critically acclaimed core textbook provides students from technology and science based backgrounds with the theoretical knowledge and practical skills required to transform innovative ideas into commercially viable businesses for profit or social ends. Blending theory, policy and practice in a manner that is accessible to readers with little prior knowledge of business commercialisation, it offers a framework for understanding the entrepreneurial process for technological ideas. The book provides students with comprehensive guidance on the specialized field of 'technopreneurship'. It provides the tools and frameworks required for managing, commercialising and marketing technological innovation. With real life examples and case studies from a range of countries and industries, it will equip students with the understanding required to successfully launch their product. This text caters for undergraduate and postgraduate students studying technology entrepreneurship modules on engineering, science and computing technology programmes. New to this edition: -All chapters updated to reflect the evolution of theory and practice in the field -New cases on digital entrepreneurship, growth and scaling -Extended geographical coverage of case studies -Entrepreneurial practices updated to include recent research -Strategic context of business models, business growth and scaling, digital entrepreneurship, entrepreneurial marketing, organization design and crowdfunding developed and updated.
