Leave your questions in the comments☐☐

Almost anything you could possibly want to know about any word or technique in construction. Hundreds of up-to-date terms, materials, drawings and pictures with detailed descriptions.

Everything you need to know to estimate, build, and repair practically every type of roof covering: asphalt shingles, roll roofing, wood shingles & shakes, clay tile, slate, metal, built-up, and elastomeric. Shows how to measure and estimate most roofs (including estimating shortcuts discovered by the author), how to install leak-proof underlayment and flashing, and how to solve problems with insulation, vapor barriers, and waterproofing. Over 300 large, clear illustrations that help you find the answers to all your roofing questions.

With this new book you'll quickly learn, step-by-step, the basic methods (and some valuable tricks of the

Download Free Craftsman String Trimmer Manual File Type

trade) to master high-speed metal stud framing in commercial construction. If you're an experienced wood framer, you already have many of the skills you'll need. This manual, written by a framer who runs work for one of the largest metal stud contractors in the country, tells you just about everything you need to know to transfer those skills to metal stud framing in commercial buildings.

This is the book for construction professionals who want a clear understanding of alternative materials and how using them can enhance their projects -- both residential and commercial. It covers the materials -- including their strengths and any limitations -- as well as installation tips and manhour estimates. For each product listed, you'll learn where you can get it, including phone numbers and Website addresses of the manufacturers. Every builder needs a niche. This book is full of new, exciting materials that you can offer your customers with confidence.

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.
