Diarmaid MacCulloch, 6 February 2014 On my bookshelves is a handsome set of late Victorian printed books in a plum-coloured binding. I take down a volume, and read on the spine the name 'David Copperfield'; underneath, in slightly smaller letters, is another name, 'Charles Dickens'.

The New York Times bestseller and definitive history of Christianity for our time—from the award-winning author of *The Reformation* and *Silence*—A product of electrifying scholarship conveyed with commanding skill, Diarmaid MacCulloch's *Christianity* goes back to the origins of the Hebrew Bible and encompasses the globe. It captures the major turning points in Catholic, Protestant, and Orthodox history and fills in often neglected accounts of conversion and confrontation in Africa, Latin America, and Asia. MacCulloch introduces us to monks and crusaders, heretics and reformers, popes and abolitionists, and discover Christianity's essential role in shaping human history and the intimate lives of men and women. And he uncovers the roots of the faith that galvanized America, charting the surprising beliefs of the founding fathers, the rise of the Evangelical movement and of Pentecostalism, and the recent crises within the Catholic Church. Bursting with original insights and a great pleasure to read, this

monumental religious history will not soon be surpassed.

The most profound characteristic of Western Europe in the Middle Ages was its cultural and religious unity, a unity secured by a common alignment with the Pope in Rome, and a common language - Latin - for worship and scholarship. The Reformation shattered that unity, and the consequences are still with us today. In *All Things Made New*, Diarmaid MacCulloch, author of the New York Times bestseller *Christianity: The First Three Thousand Years*, examines not only the Reformation's impact across Europe, but also the Catholic Counter-Reformation and the special evolution of religion in England, revealing how one of the most turbulent, bloody, and transformational events in Western history has shaped modern society. The Reformation may have launched a social revolution, MacCulloch argues, but it was not caused by social and economic forces, or even by a secular idea like nationalism; it sprang from a big idea about death, salvation, and the afterlife. This idea - that salvation was entirely in God's hands and there was nothing humans could do to alter his decision - ended the Catholic Church's monopoly in Europe and altered the trajectory of the entire future of the West. By turns passionate, funny, meditative, and subversive, *All Things Made New* takes readers onto fascinating new ground, exploring the original conflicts of the Reformation and cutting through prejudices that continue to distort popular conceptions of a religious divide still with us after five centuries. This monumental work, from one of the most distinguished scholars of Christianity writing today, explores the ways in which historians have told the tale of the Reformation, why their interpretations have changed so dramatically over time, and ultimately, how the contested legacy of this revolution continues to impact the world today.

The long-awaited biography of the genius who masterminded Henry VIII's bloody revolution in the English government, which reveals at last Cromwell's role in the downfall of Anne Boleyn "This a book that - and it's not often you can say this - we have been awaiting for four hundred years." --Hilary Mantel, author of *Wolf Hall* Since the sixteenth century we have been fascinated by Henry VIII and the man who stood beside him, guiding him, enriching him, and enduring the king's insatiable appetites and violent outbursts until Henry ordered his beheading in July 1540. After a decade of sleuthing in the royal archives, Diarmaid MacCulloch has emerged with a tantalizing new understanding of Henry's mercurial chief minister, the inscrutable and utterly compelling Thomas Cromwell. History has not been kind to the son of a Putney brewer who became the architect of England's split with Rome. Where past biographies portrayed him as a scheming operator with blood on his hands, Hilary Mantel reimagined him as a far more sympathetic figure buffered by the whims of his master. So which was he--the villain of history or the victim of her creation? MacCulloch sifted through letters and court records for answers and found Cromwell's fingerprints on some of the most transformative decisions of Henry's turbulent reign. But he also found Cromwell the man, an administrative genius, rescuing him from myth and slander. The real Cromwell was a deeply loving father who took his biggest risks to secure the future of his son, Gregory. He was also a man of faith and a quiet revolutionary. In the end, he could not appease or control the man whose humors were so violent and unpredictable. But he made his mark on England, setting her on the path to religious awakening and indelibly transforming the system of government of the English-speaking world.

The Reformation was the seismic event in European history over the past 1000 years, and one which tore the medieval world apart. Not just European religion, but thought, culture, society, state systems, personal relations - everything - was turned upside down. Just about everything which followed in European history can be traced back in some way to the Reformation and the Counter-Reformation which it provoked. The Reformation is where the modern world painfully and dramatically began, and MacCulloch's great history of it is recognised as the best modern account.

A provocative meditation on the role of silence in Christian tradition by the New York Times bestselling author of *Christianity* We live in a world dominated by noise. Religion is, for many, a haven from the clamor of everyday life, allowing us to pause for silent contemplation. But as Diarmaid MacCulloch shows, there are many forms of religious silence, from contemplation and prayer to repression and evasion. In his latest work, MacCulloch considers Jesus's strategic use of silence in his confrontation with Pontius Pilate and traces the impact of the first mystics in Syria on monastic tradition. He discusses the complicated fate of silence in Protestant and evangelical tradition and confronts the more sinister institutional forms of silence. A groundbreaking book by one of our greatest historians, *Silence* challenges our fundamental views of spirituality and illuminates the deepest mysteries of faith.

The Reformation and Counter-Reformation represented the greatest upheaval in Western society since the collapse of the Roman Empire a millennium before. The consequences of those shattering events are still felt today—from the stark divisions between (and within) Catholic and Protestant countries to the Protestant ideology that governs America, the world's only remaining superpower. In this masterful history, Diarmaid MacCulloch conveys the drama, complexity, and continuing relevance of these events. He offers vivid portraits of the most significant individuals—Luther, Calvin, Zwingli, Loyola, Henry VIII, and a number of popes—but also conveys why their ideas were so powerful and how the Reformation affected everyday lives. The result is a landmark book that will be the standard work on the Reformation for years to come. The narrative verve of *The Reformation* as well as its provocative analysis of American culture's debt to the period will ensure the book's wide appeal among history readers.

Christianity, one of the world's great religions, has had an incalculable impact on human history. This book, now the most comprehensive and up to date single volume work in English, describes not only the main ideas and personalities of Christian history, its organisation and spirituality, but how it has changed politics, sex, and human society. Diarmaid MacCulloch ranges from Palestine in the first century

to India in the third, from Damascus to China in the seventh century and from San Francisco to Korea in the twentieth. He is one of the most widely travelled of Christian historians and conveys a sense of place as arrestingly as he does the power of ideas. He presents the development of Christian history differently from any of his predecessors. He shows how, after a semblance of unity in its earliest centuries, the Christian church divided during the next 1400 years into three increasingly distanced parts, of which the western Church was by no means always the most important: he observes that at the end of the first eight centuries of Christian history, Baghdad might have seemed a more likely capital for worldwide Christianity than Rome. This is the first truly global history of Christianity.

A gripping biography that sheds provocative new light on the life of Saint Patrick Saint Patrick was, by his own admission, a controversial figure. Convicted in a trial by his elders in Britain and hounded by rumors that he settled in Ireland for financial gain, the man who was to become Ireland's patron saint battled against great odds before succeeding as a missionary. *Saint Patrick Retold* draws on recent research to offer a fresh assessment of Patrick's travails and achievements. This is the first biography in nearly fifty years to explore Patrick's career against the background of historical events, and Roy Flechner leaves no stone unturned as he takes readers on a riveting journey through Romanized Britain and late Iron Age Ireland. Rather than a dismantling of Patrick's reputation, or an argument against his sainthood, Flechner's biography raises crucial questions about self-image and the making of a reputation. From boyhood deeds to the challenges of a missionary enterprise, *Saint Patrick Retold* steps beyond established narratives to reassess a notable figure's life and legacy.

"This is Reformation history as it should be written, not least because it resembles its subject matter: learned, argumentative, and, even when mistaken, never dull."--Eamon Duffy, author of *The Stripping of the Altars: Traditional Religion in England, 1400-1580*
