This book is inspired by the author's own experiences 10 years ago which completely transformed her as a person. This journey gave her deep insights into the inner workings of her own mind, and she has been excited to spread this message ever since. This passion nudged her down the path of becoming a certified life coach. Using simple, sometimes plainly obvious, yet profoundly powerful ideas, she has been able to help many of her clients. The book gives thirteen powerful keys to unleash your power within. The thirteen chapters on the book are dedicated to thirteen different traits which make us human. They describe ideas that appear natural and familiar to all of us, but when applied in your life through the thought-provoking exercises attached to each chapter, will unleash your inner power to cause whatever shifts are needed in your lives. The book usually has the effect to make the readers more confident in their life pursuits, connect with her true self – open and connected to others, and not trapped in the drama of negative thinking, shame, and blame by learning to keep healthy boundaries and practicing self-care. The book is filled with the much needed "grab you by the shoulder and look you in the eye" moments. It is full of real-life personal examples from the author's life and those of her clients', which makes the book very gripping and thought provoking. The book is simple, yet so powerful, making the readers introspect the thirteen traits in their own lives, and compel them to come to terms with their true-self and claim their power within to live the life they deserve.

Make the most of your iPhone with this witty, authoritative, full-color guide to iOS 14. Apple has sold over 2.2 billion iPhones—but not one has come with a user guide. And with each annual update of iOS, Apple piles on more and more features; at this moment, the Settings app alone bristles with over 1,000 options. Unlock the Youiverse: Unclutter your mind and discover riches and fulfillment like no other! is for anybody who wants to reach their highest potential. This humorous, conversational style step-by-step guide is based on the personal experience of the author and his experience is backed up by some of the greatest saints and sages that have ever existed. You know it's there don't you? Hiding behind the noise in your head is the potential...the awesomeness...the wisdom...the intelligence.....the power. Who, just who is ready to stand up and say "It's my time!?" Who, just who is ready to come out and say "I'm not going to go to my grave like this!?" Will it be you? Unlocking the Youiverse, your internal universe, is imperatively important and simple and yet so few do it. Just imagine, everything you could ever need or want is available to you right now and all you need to do is unclutter your mind. When you unclutter you will find an awesome power. This is not an ego power, a power over others, a 'I'm stronger than you' type thing. It's actually the power to say 'NO'. It's the power to not let people and events push you off-centre. It's the power to hold fast to the truth and not let go. It's the power to say no to the self-limiting beliefs that keep you where you are. It's the power to wait patiently for just the right opportunity to come along. It's the power to say no to those parts of living that suck the life out of us. Unsolicited praise for the book ... 5 stars "Robert really cut through to the nitty gritty ... Not a lot of fluff here. You won't get lost in new age concepts. Direct and to the point. I've reread this book 3 times and enjoy it as a friendly reminder of the work that needs be done in order to reap the rewards. Refreshing voice to a well worn topic. If you want to understand the workings of the mind in regards to happiness, this book will offer it up on a platter." 5 stars "I have read many, many self-help books about happiness, but this author really and finally explains not just what happiness is, but how to actually get there, and the false beliefs we've had all our life that prevents us from being happy. Now I know what to do, and now i see that most of the other authors were right too about the basics, but didn't explain the real reasons behind it. Thanks Robert Baohm for this book, and i invite you all to read it."
