Intelligent Buildings and Building Automation Shengwei Wang Giving you a combination of general principles, applied practice and information on the state-of-the-art, this book will give you the information you need to incorporate the latest systems and technologies into your building projects.

Intelligent Buildings and Building Automation | Shengwei ---
An intelligent building optimizes preventative maintenance by automatically scheduling maintenance on assets based on things like actual run hours or onboard performance diagnostics in the system. As facility managers use things like variable frequency drives (VFDs) to save energy, they reduce the total run hours on a piece of equipment.

How Do Intelligent Buildings Differ from Building ---
The definition proposed by the Intelligent Building Insitute is "an intellgient building is one that provides a productive and cost-effective environment through optimization of its four basic elements—structure, systems, services and management—and the interrelationships between them. Intelligent buildings help business owners, property managers and occupants to realize their goals in the areas of cost, comfort, convenience, safety, long-term flexibility and marketability."

Intelligent Buildings - an overview | ScienceDirect Topics
Building automation is the automatic centralized control of a building's HVAC (heating, ventilation and air conditioning), lighting, Access Control, Security Systems, and other interrelated systems through a Building Management System (BMS) or Building Automation System (BAS). The objectives of building automation are improved occupant comfort, efficient operation of building systems, reduction in energy consumption, reduced operating costs, increased security, historical performance ...

Building automation - Wikipedia
An intelligent building thinks for itself. It does things for you before you ask, anticipating your needs and helping you do what you need to do. It adapts to multiple parameters, is aware of their context and affects systems holistically to suit these inputs. This article is the first in a series about designing intelligent buildings.
