ISO 14224 was prepared by Technical Committee ISO/TC 67,
Materials, equipment and offshore structures for petroleum,
petrochemical and natural gas industries. This second edition
cancels and replaces the first edition (ISO 14224:1999), which has
been technically modified and extended.

While ISO 14224 was developed for the Petroleum, Natural Gas and Petrochemical industries, the same process can and should be applied in any organization. When implemented, the right data can be gathered to not only eliminate defects from the current assets but be used to design more efficient and reliable equipment.
