Immunology
New Impact Factors Released.
We are proud to announce the
latest impact factors (IFs)
for the British Society for
Immunology's official
journals: Clinical &
Experimental Immunology has
achieved an IF of 3.532 and
Immunology has reached its
highest ever IF of 5.016 .
We'd like to take this
opportunity to celebrate our
journals for building upon
their position as highly
respected publications

Immunology

The Journal of Immunology
(The JI) publishes novel,
peer-reviewed findings in
all areas of experimental
immunology, including innate
and adaptive immunity,
inflammation, host defense,
clinical immunology,
autoimmunity and more. The JI
is published by The American
Association of Immunologists
(AAI).. The JI thanks the
scientists who reviewed
manuscripts in the past
year.

The Journal of Immunobiology
Factor 2013
is an open access journal.
Immunology is a branch of
biomedical science which
deals with an organism's
response towards an invading
environmental factor. This
process involves a complex
interplay of invading
particle and defence system
of the host organism along
with successive cascading
molecular mechanism to
eliminate the invading
agent.

advances and their implications for clinical practice, focusing in particular on drugs with FDA/EMA approvals and breakthrough status. The aim is to deliver a landmark educational tool that will serve as the definitive reference for MD and PhD students while also meeting the needs of established researchers and healthcare professionals. Immunotherapy-based approaches are now inducing long-lasting clinical responses across multiple histological types of neoplasia, in previously difficult-to-treat metastatic cancers. The future challenges for

Download File PDF Journal Of Immunology Impact

Factor 2013
Oncologists are to understand and exploit the cellular and molecular components of complex immune networks, to optimize combinatorial regimens, to avoid immune-related side effects, and to plan immunomonitoring studies for biomarker discovery. The editors hope that this book will guide future and established health professionals toward the effective application of cancer immunology and immunotherapy and contribute significantly to further progress in the field.
