Science programmes of study: key stage 3

Our new KS3 Science Syllabus organises the big ideas and topics of the programme of study into clear objectives. It outlines what your students need to know, what they must be able to apply and how to extend that knowledge where appropriate. The syllabus is easy to use. Just like a specification, it lays out clearly the key requirements.

AQA | Science | KS3 | KS3 Science Syllabus

AIMS AND PURPOSES OF SCIENCE. The principal focus of science teaching in the national curriculum at key stage 3 is to develop a deeper understanding of a range of scientific ideas in the subject disciplines of biology, chemistry and physics. Pupils should begin to see the connections between these subject areas and become aware of some of the big ideas underpinning scientific knowledge and understanding.
