So what is a finger mode / hand mode
□ Practical Approach: An active Finger mode is indicated when the thumb on a spot on a finger is activated while we test the IM (indicator muscle). When the combination of fingers touching (finger mode/hand mode) turns off a IM, then we have a unbalance on that spot (see Figure

The focus in Specialised Kinesiology has
shifted greatly to "natural" intelligence

Get Free Kinesiology Finger Modes

versus "artificial" intelligence. While lists and checking "by the number" works, it relies heavily on "artificial" intelligence. A better option is to invoke the natural intelligence of our neurology through the use of finger-modes.

The Finger Modes, the modern derivative
of the Mudra, in the hands of a trained
Kinesiologist, are both an assessment tool
AND a healing tool. Hand modes
