Post-Acute and Long-Term Care Management. Post-acute and long-term care can include long-term acute care hospitals, skilled nursing facilities, inpatient rehabilitation facilities, home health agencies, hospice, assisted living facilities, and correctional facilities. Clients/residents in these settings have been hospitalized recently and usually have complex needs, so a person-centered, individualized process to provide care is necessary.

Post-Acute and Long-Term Care Management

The average LOS in an LTACH needs to exceed 25 days, and patients should have the medical necessity requiring an inpatient level of care for all of those days. In contrast, the average LOS at a short-stay acute care hospital is 5 days. LTACHs initially evolved from existing chronic disease and tuberculosis units.
