Currie breaks down the "Four Modes of Verbal Communication" to help readers better understand why men exhibit the behavior they do towards the women they are either interested in dating or having a few episodes of casual sex with.

"The Beta Male Revolution is for men in the 21st Century what Feminism was for women in the 1960s and 1970s" says Author and Professional Dating Coach Alan Roger Currie in his latest book. Most men don't want to remain 'just friends' with women. Men want either sex only from women, or a combination of sexual companionship and non-sexual companionship. Unlike men, women have as many as FOUR

types of men they want to spend time with: - Men who women only want to spend time with for sexual enjoyment and satisfaction: These are 'Total Alpha males' - Men who women only want to spend time with for a combination of sexual companionship and non-sexual companionship. These are 'Alpha males with a few Beta traits and tendencies' - Men who women want to spend time with primarily for the benefit of entertaining conversation, enjoyable social companionship, and financial assistance and support. These are 'Beta males with a few Alpha traits and tendencies' - Men who women only want to spend time with for strictly platonic friendship, flattery, and to have men provide them with an 'empathetic listening

ear' when they are feeling bored, frustrated, or depressed. These are 'Total Beta males' Many women socially interact exclusively with Alpha male types between the ages of 18 and 29, and then begin looking for a nice, sweet, polite, monogamy-oriented Beta male type for marriage once they reach the age of 30. Well, the Beta male types are tired of this routine, and they are now avoiding proposing to marriage to women who they perceive as "Alpha male leftovers." Beta males are now well aware that the vast majority of women want to spend time with Alpha males for sexual enjoyment and satisfaction. They are also well aware that most women want to spend time with Beta males for platonic friendship, financial

favors, and entertaining conversation. The Beta Male Revolution is a brutally honest assessment of where we as a society have been, where we are now, and where we are headed regarding the state of dating, long-term romantic relationships, marriage, and monogamy vs. promiscuity vs. polyamory. Women can also learn from this book because Currie explains just why men pursue some women for short-term non-monogamous 'casual' sex only, while they pursue other totally different women for long-term romantic relationships and marriage. Purchase this book right now and be educated and enlightened. You are guaranteed to have a better understanding of the manner in which the mind of the

opposite sex works, and why men and women gravitate toward the type of romantic companions and sexual companions that they do after reading this book. This book will be talked about for years to come.

Are you a man (or woman) who is sick and tired of members of the opposite sex engaging in "manipulative head games" with you in today's ever-so-challenging dating scene? Read Alan Roger Currie's second paperback entitled, "Upfront and Straightforward"

his 2012 popular best-seller for single heterosexual men titled, "The Possibility of Sex: How Naïve and Lustful Men are Manipulated by Women Regularly" Currie was the very first professional dating coach in what is now known as 'The Manosphere' to encourage the use of upfront, specific, straightforwardly honest verbal communication methods (otherwise known informally as "direct verbal game") as a means of quickly identifying women who possess sexually duplicitous tendencies and/or highly manipulative and materialistic desires with men. Currie was the first one to create the concept of the "Manipulative Timewaster," which is a woman who is very friendly and flirtatious with naïve

and lustful men, but in reality, she has no genuine intention of actually engaging in sexual relations with these men. Instead, this type of woman - the Manipulative Timewaster - desires to exploit men for access to their non-sexual time, attention, and companionship and/or exploit men for access to their financial and materialistic generosity. After men read this book, they will no longer have to worry about women placing them in the dreaded "just-friends-only" category (also known simply as a woman's "friend zone"). Men will have their entire mindset and paradigm changed as a result of reading this book and adhering to Currie's knowledge, wisdom, insight and teachings.

A page-turning narrative about Marissa Mayer's efforts to remake Yahoo as well as her own rise from Stanford University undergrad to CEO of a \$30 billion corporation by the age of 38. When Yahoo hired star Google executive Mayer to be its CEO in 2012 employees rejoiced. They put posters on the walls throughout Yahoo's California headquarters. On them there was Mayer's face and one word: HOPE. But one year later, Mayer sat in front of those same employees in a huge cafeteria on Yahoo's campus and took the beating of her life. Her hair wet and her tone defensive, Mayer read and answered a series of employee-posed questions challenging the basic elements of her plan. There

was anger in the room and, behind it, a question: Was Mayer actually going to be able to do this thing? **MARISSA MAYER AND THE FIGHT TO SAVE YAHOO!** is the inside story of how Yahoo got into such awful shape in the first place, Marissa Mayer's controversial rise at Google, and her desperate fight to save an Internet icon. In August 2011 hedge fund billionaire Daniel Loeb took a long look at Yahoo and decided to go to war with its management and board of directors. Loeb then bought a 5% stake and began a shareholder activist campaign that would cost the jobs of three CEOs before he finally settled on Google's golden girl Mayer to unlock the value lurking in the company. As Mayer began to remake Yahoo from a

content company to a tech company, an internal civil war erupted. In author Nicholas Carlson's capable hands, this riveting book captures Mayer's rise and Yahoo's missteps as a dramatic illustration of what it takes to grab the brass ring in Silicon Valley. And it reveals whether it is possible for a big lumbering tech company to stay relevant in today's rapidly changing business landscape.
