Hello, we have cloned the old 16 inch floppy disk with parameters in it from Okuma lb 15 osp 5000-LG, we can't open floppy with windows, because it has different partition in it. So the question is maybe someone know how to look the information in it. We want to type parameters manually to the machine, because there is no way to get the 16 inch floppy drive to plug to the machine to load the ...
