About | HEROines Inc

The word hero has been so misused in our current culture to the point it has lost the true meaning of the word. The true heroes are the men and women who give selflessly of their time and compassion and yes even their money to help someone else and in so doing expect nothing in return. If something is done expecting recognition or publicity or anything in return then it is not heroic, it is self promoting. Thank God for the real, mainly unsung heroes.

At Help for Heroes, we believe those who serve our country deserve support when they 're wounded. Every day, men and women have to leave their career in the Armed Forces as a result of physical or psychological wounds; their lives changed forever. We help them, and those still serving, to recover and get on with their lives.

Our heroes are symbols for us of all the qualities we would like to possess and all the ambitions we would like to satisfy. A person who chooses Martin Luther King or Susan B. Anthony as a hero is going to have a very different sense of what human excellence involves than someone who chooses, say, Paris Hilton, or the rapper 50 Cent.

"A profound roadmap for how whole systems of oppression can die if we choose to do the work."—LaTosha Brown, cofounder of Black Voters Matter “ An inspiring, empowering clarion call and guide to become the heroines we were meant to be. ” —Debra Messing, actor and activist Within every woman lies a powerful healer. She is an ageless and resilient force for good, in her own life and in the broader world. This is how you find her. You were born with massive reservoirs of strength, confidence, and creativity. But oppressive structures that keep you “ in your place ” have disconnected you from your natural gifts. The decision to recover and reclaim your latent ability follows a path forged by myth and legend: the heroine ’ s journey. Becoming Heroines is your guide to inner rebirth, opening the closed doors in your heart, shining a light on dark places, and ultimately, unleashing your full power. For decades, Elizabeth Cronise McLaughlin has been the go-to mentor for women who ’ ve wasted years playing by traditional rules and are ready to break away. Now she ’ ll lead you on a journey of radical personal

transformation, starting by healing the painful memories that hold you back from living to your fullest capacity. You ' ll ditch the individualist values that pit women against one another and confront any internalized bias contributing to systems of oppression. And joining with the growing revolution, you ' ll lend your voice to those repairing the wounds of history and building a future of freedom and justice for all. More than your average leadership manual, *Becoming Heroines* is an invitation to claim your rightful role as the heroine of your own journey. For any woman ready to live out her values more radically, rise from the ashes of trauma and grief, and lead us all to a better world, the journey begins.

What if women forgot everything they'd been taught and radically redefined modern leadership? For those who have spent years playing by the rules only to suffer the cost, and who are now ready to transform their world and work, a soulful guide to knowing their power and using it for change at the deepest levels. Catastrophic events give us an opportunity to question everything. With systems of inequity revealed as never before and the need for revolutionary change in the air, female leaders are stepping forward to reinvent the broken systems they once accepted. *Becoming Heroines* guides them to ditch the old rules and create new ones, starting with healing internalized trauma, understanding principles of equity and inclusion, and refusing to be silenced any longer. Elizabeth Cronise McLaughlin runs wildly popular leadership and activist programs for women willing to undergo the deep inner transformation that leads to rebirth. Now she's leading brave readers on a journey to reclaim power, prompting them to: - Observe and unpack the structures of oppression with which women engage in their daily lives - Confront and analyze their own internalized biases - Listen, advocate and overthrow systems and institutions that work to keep women and all marginalized people out of power - Engage the process of building a future world that creates freedom for all This book is a must-read for any leader who's ready to live out her values more radically, rise from the ashes of trauma and defeat, and lead us all to a radically better world.

I am beginning to realize that taking the self out of our essays is a form of repression. Taking the self out feels like obeying a gag order--pretending an objectivity where there is nothing objective about the experience of confronting and engaging with and swooning over literature." -- from "Heroines" "On the last day of December, 2009 Kate Zambreno began a blog called "Frances Farmer Is My Sister," arising from her obsession with the female modernists and her recent transplantation to Akron, Ohio, where her husband held a university job. Widely reposted, Zambreno's blog became an outlet for her highly informed and passionate rants about the fates of the modernist "wives and mistresses." In her blog entries, Zambreno reclaimed the traditionally pathologized biographies of Vivienne Eliot, Jane Bowles, Jean Rhys, and Zelda Fitzgerald: writers and artists themselves who served as male writers' muses only to end their lives silenced, erased, and institutionalized. Over the course of two years, "Frances Farmer Is My Sister" helped create a community where today's "toxic girls" could devise a new feminist discourse, writing in the margins and developing an alternative canon. In "Heroines," Zambreno extends the polemic begun on her blog into a dazzling, original work of literary scholarship. Combing theories that have dictated what literature should be and who is allowed to write it--from T. S. Eliot's *New Criticism* to the writings of such mid-century intellectuals as Elizabeth Hardwick and Mary McCarthy to the occasional "girl-on-girl crime" of the Second Wave of feminism--she traces the genesis of

a cultural template that consistently exiles female experience to the realm of the "minor," and diagnoses women for transgressing social bounds. "ANXIETY: When she experiences it, it's pathological," writes Zambreno. "When he does, it's existential." By advancing the Girl-As-Philosopher, Zambreno reinvents feminism for her generation while providing a model for a newly subjectivized criticism.

NATIONAL BESTSELLER "A delectable brew of gothic horror and Hollywood satire . . . [and] what makes all this so much fun is Danforth's deliciously ghoulish voice . . . exquisite." —Ron Charles, THE WASHINGTON POST "A multi-faceted novel, equal parts gothic, sharply funny, sapphic romance, historical, and, of course, spooky." —ENTERTAINMENT WEEKLY Named a Most Anticipated Book by Entertainment Weekly • Washington Post • USA Today • Time • O, The Oprah Magazine • BuzzFeed • Harper's Bazaar • Vulture • Parade • HuffPost • Refinery29 • Popsugar • E! News • Bustle • The Millions • GoodReads • Autostraddle • Lambda Literary • Literary Hub • and more! The award-winning author of *The Miseducation of Cameron Post* makes her adult debut with this highly imaginative and original horror-comedy centered around a cursed New England boarding school for girls—a wickedly whimsical celebration of the art of storytelling, sapphic love, and the rebellious female spirit Our story begins in 1902, at the Brookhants School for Girls. Flo and Clara, two impressionable students, are obsessed with each other and with a daring young writer named Mary MacLane, the author of a scandalous bestselling memoir. To show their devotion to Mary, the girls establish their own private club and call it the Plain Bad Heroine Society. They meet in secret in a nearby apple orchard, the setting of their wildest happiness and, ultimately, of their macabre deaths. This is where their bodies are later discovered with a copy of Mary's book splayed beside them, the victims of a swarm of stinging, angry yellow jackets. Less than five years later, the Brookhants School for Girls closes its doors forever—but not before three more people mysteriously die on the property, each in a most troubling way. Over a century later, the now abandoned and crumbling Brookhants is back in the news when wunderkind writer Merritt Emmons publishes a breakout book celebrating the queer, feminist history surrounding the "haunted and cursed" Gilded Age institution. Her bestselling book inspires a controversial horror film adaptation starring celebrity actor and lesbian it girl Harper Harper playing the ill-fated heroine Flo, opposite B-list actress and former child star Audrey Wells as Clara. But as Brookhants opens its gates once again, and our three modern heroines arrive on set to begin filming, past and present become grimly entangled—or perhaps just grimly exploited—and soon it's impossible to tell where the curse leaves off and Hollywood begins. A story within a story within a story and featuring black-and-white period-inspired illustrations, *Plain Bad Heroines* is a devilishly haunting, modern masterwork of metafiction that manages to combine the ghostly sensibility of Sarah Waters with the dark imagination of Marisha Pessl and the sharp humor and incisive social commentary of Curtis Sittenfeld into one laugh-out-loud funny, spellbinding, and wonderfully luxuriant read. "Full of Victorian sapphic romance, metafictional horror, biting misandrist humor, Hollywood intrigue, and multiple timeliness—all replete with evocative illustrations that are icing on a deviously delicious cake."

The journey to Greatness begins with Gratitude. Those who have been able to understand this at the deeper level, have been those living the greatest form of lives. It seemed strange that much has been given to us and we still continue to sell ourselves short. What we are looking for is also looking for us. We are in an ocean of motion colliding with potential greatness and joy. Most of us just cannot simply see and appreciate this opportunity. People will be able to tell us part of who we are but the real task of finding out more about the possibilities for our future stay with us. Sometimes you would like to live a White Life and the only kind of life for you is a Blue Life and when you ask for help, you are given a Red Life and the only possibility you can see is a Yellow Life. Some people would give up on their dreams and commitments simply because they cannot see the light at the end of the tunnel. When you add the Blue Life, the Red Life and the Yellow Life, you have just got your White Life. Our opportunities come from sources we hardly imagined. Why are we the way we are? We are all unique and our uniqueness is such that, we can be hatched in the same nest, raised in the same nest by the same mother and we would collect different kinds of data. We would tell different kinds of stories from the same nest. Our ability to process the data that we have longed gathered is vital and of course, would also be different. What is interesting is that everyone is unique and our ability to distinguish between our uniqueness from the rest of the world gives us the secrets to our dreams. We can evolve and live different kinds of lives. Our unique individual experiences shape the way we see the world and how we choose to interact with the other species. And the most interesting thing is that, whatever we are searching for is also searching for us. Whatever we will ever need is already here. The solutions to our problems are almost available; we just have to figure them out by ourselves. Why is life the way it is? The solutions are either in books, songs, speeches, incidences, people, animals etc. It is almost impossible to find all the solutions in one place but one solution is enough to show you where to find the rest. Sometimes your problems are your solutions and other times your solutions are your problems. You can choose to call it opportunity or say it is your biggest problem. And at the end of the day, whether you found out about all the possibilities or you never did will be the question to be answered. Find out all that you can do with your social capital, wealth, opportunity, time, freedom, choice, mind, will, health, imagination, intuition, intelligence, knowledge, faith, love, kindness, blessings, vision, character, ability, memory, perception, reason, hope, commitment, dedication, discipline and dignity. We can generally say that the purpose of life is so and so but to find out individually the purpose of life, there is more work to be done. And it is worth it.
