manual. Having the documented source code to a finished product enables the book to provide many examples.

MFC Programming [With Source Code for All Programs in the ...

MFC was introduced in 1992 with Microsoft's C/C++ 7.0 compiler for use with 16-bit versions of Windows as an extremely thin object-oriented C++ wrapper for the Windows API. C++ was just beginning to replace C for development of commercial application software at the time. In an MFC program, direct Windows API calls are rarely needed.
