The second generation of the 3.0l V6 TDI engine. V6 TDI engines are already something of a tradition at Audi. The success story began in 1997 with the introduction of the world's first four-valve 2.5l V6 TDI engine with a distributor injection pump. In late 2003 it was followed by the first V6 TDI with common rail injection, a 3.0l engine with a chain-driven timing gear.
