A diagnosis is the foundation of all medical practice, and history taking and physical examination are key in the diagnostic process despite the everincreasing sophistication of diagnostic testing. Tests ordered indiscriminately or inappropriately can seriously mislead and be dangerous: test ordering must be based on the findings of a proper clinical assessment of the patient.

The truth about the American Revolution is under attack. Despite what you may have learned in school, it wasn't a rich slaveholder's war fought to "maintain white privilege." In fact, the War of Independence wasn't about maintaining any status quo—it was the world's first successful bottom-up revolution by the people, ushering in a new dawn of liberty that history had never seen before. But with left-wingers dominating the teaching of history, where can you go for the true story of the unprecedented events that made the United States the world's greatest nation? Now bestselling historian Larry Schweikart has teamed up with author Dave Dougherty to write the ground-breaking patriotic history you've always wanted to read about the foundation of our unique nation. The Politically Incorrect Guide to the American Revolution reveals: Four key factors that applied only in America, making it impossible to replicate the Revolution anywhere else Why it matters that the Patriot fighting force was overwhelmingly Scotch-Irish The key role of Protestantism: which denominations tended to become Patriots, and which Tories How Americans were different from the Europeans and English even at the outset of the Revolution How the casualties of the deadliest war in American history are routinely underreported How our Revolution became a model for hundreds of others—that all failed Schweikart and Dougherty take on the left-wing myths—starting with the Marxist narrative of the Revolution in Howard Zinn's nearly ubiquitous A People's History of the United States—and uncover the truth about America's beginning.

Salvation is more than just being saved from sin. Salvation is being saved to the glory of God. We were created in the likeness and the image of God, and it is His desire for us to be crowned with His glory and honor. The Blood and the Glory reveals how the power of the Blood of Jesus and the glory of God fit together in God's plan of redemption. This exciting book draws from the experiences of great leaders of faith from the past to rekindle the power of the Blood of Jesus in the Church today. Combining personal stories with strong biblical principles, Billye Brim teaches the importance of depending upon the Blood of Jesus in your daily walk with God. You will understand as never before that without the Blood of Jesus, it is impossible to be prepared for the glory of God. By using the principles outlined in this book you will learn: How to use the Blood of Jesus to overcome the enemy How to use the Blood of Jesus to protect your family How to draw a blood line around your property and possessions How to maintain victory through the Blood of Jesus How the Blood of Jesus is connected to the outpourings of the Holy Spirit. We are in the last days. The circle of glory is almost complete. It is through the Blood of Jesus that we can be redeemed to our rightful place of glory and honor in the kingdom of God.
