Queen Elizabeth II's Reign-Then and Now—HISTORY

Elizabeth I (Born Princess Elizabeth; September 7, 1533–March 24, 1603) was Queen of England and Ireland from 1558 to 1603, the last of the Tudor monarchs. She never married and consciously styled herself as the Virgin Queen, wedded to the nation.

The reign of Elizabeth I was marked by change: England finally became a protestant nation, and England's relations with her neighbours were also changing, in part because of religious controversies. Elizabeth's reign was also significant in terms of changing gender expectations, and in terms of attitudes towards those considered different. While a woman ruled, others, often at the bottom of the social scale, were condemned as witches. Levin evaluates Elizabeth and the significance of her reign both in the context of her age and our own, examining the increasing cultural diversity of Elizabethan England and the impact of the reign of an unmarried queen on gender expectations, as well as exploring the more traditional themes of religion, foreign policy, plots and conspiracies. Levin's fresh perspective will be welcomed by students of this exceptional reign.

In this major contribution to the Ideas in Context series Anne McLaren explores the consequences for English political culture when, with the accession of Elizabeth I, imperial 'kingship' came to be invested in the person of a female ruler. She looks at how Elizabeth managed to be queen, in the face of considerable male opposition, and demonstrates how that opposition was enacted. Dr McLaren argues that during Elizabeth's reign men were able to accept the rule of a woman partly by inventing a new definition of 'citizen', one that made it an exclusively male identity, and she emphasizes the continuities between Elizabeth's reign and the outbreak of the English civil war in the seventeenth century. A significant work of cultural history informed by political thought, Political Culture in the Reign of Elizabeth I offers a wholesale reinterpretation of the political dynamics of the reign of Queen Elizabeth.

A rare historical continuum in Anglo-Irish history ran from 1558 until 1612, years dominated by William and Robert Cecil, father and son. Among the significant events of these years were a number of plots and political contrivances. This book deals with eleven controversial incidents which fell out between the years 1571 and 1601. The names begin with Ridolfi and continue through John Somerville, William Parry, Anthony Babington, Richard Hesketh, Polwhele and associates, Lopez, Edmund Yorke and Richard Williams, and Edward Squeir until Robert Devereux, second earl of Essex, in 1601. A close study of these plots helps to illustrate much that happened later in the reign of the incoming James VI of Scotland. New material, or material not so far closely investigated by scholars, is offered for consideration in a work which takes into account what has been done by authorities, recent and traditional.

"Professor Black brought to his task the knowledge and experience of a scholar who is a specialist in the period, the balance and wisdom of a philosophical mind, and the skill of a distinguished stylist. Need one be surprised that his book is not merely a first-rate text-book but a work which any serious-minded person will read with abounding pleasure."—Sunday Times "This volume is one of those books which are so packed with information that its value can only be discovered in use. For those about to make a serious study of a difficult and complex period of English history it should be a most useful introduction, for Professor Black has the rare virtue of being impartial, even on the most controversial topics...The best advanced text-book of the Elizabethan period that has yet been written."—Listener "Professor Black's book is a solid achievement of sound and accurate scholarship, whose clearness of thought and balance in judgement make it a pleasure to read."—Oxford Magazine "A most moderate, well-balanced, and ably written work, which should form a useful corrective to the many biased and unscholarly publications associated with the period it covers."—Glasgow Herald
